

# QUALITY AND ENVIRONMENT POLICY

As the most senior member of staff at FLUYTEC, S.A. and in order to ensure that all the activities of the company's employee are geared towards continuous improvement, I hereby establish the following policy:

The Quality and environment Policy applied at Fluytec, S.A. is designed to guarantee the fulfilment of the expectations and needs agreed with our customers with the finest service for the:

**“DESIGN AND MANUFACTURING OF INDUSTRIAL FILTERS AND STATIC MIXERS (PLASTIC AND METALLIC),  
LOOSE OR IN A SKID”**

Quality understood as the basic tool in the relationship with our customers and suppliers in all the areas of the company; design, purchase, project management, production and logistic. Furthermore, we understand the quality as a necessary condition for our business development and competitiveness in the market.

The Quality and Environment System, implemented according to the UNE-EN-ISO 9001 and UNE-EN ISO 14001 Standards, is built up by each person employed in the company's operations, from the understanding of a customer's requirements through to the delivery of the end product, and this entails the need for the collaboration and commitment of each and every member of staff, with a view to upholding this Quality and Environment Policy and promoting individual responsibility, engagement and teamwork.

FLUYTEC, S.A undertakes to comply with the legislation. The normative requirements of application constitute minimum criteria of compliance and with others that the organization subscribes.

Make a continuous effort to identify, characterize and minimize the environmental impact derived from our activity, seeking an efficient use of resources, a prevention of pollution and a commitment to protect the Environment.

Senior Management at Fluytec has a clear and unavoidable responsibility in its duty to improve the efficacy of the Quality and Environment Management System, as well as for overseeing its application and regularly reviewing its content, adapting it to the nature of its business and processes, as well as to the organisation's overall strategy, and we are committed to providing all the necessary means and resources for its implementation, compliance and effectiveness.
